

**CALIFORNIA WATER ENVIRONMENT ASSOCIATION
SANTA CLARA VALLEY SECTION**

**TRAINING MEETING & PLANT TOUR
SILICON VALLEY CLEAN WATER**

February 19, 2015

Topic: Stage 1 Screening at SVCW

Speaker: Bill Bryan, Senior Engineer, SVCW

SVCW will install Stage 1 Screening this year to remove rags, solids and debris from its wastewater facility. This is a treatment step the plant has not had and this has caused untold problems. The talk will cover the need for screening, the costs and problems associated with a lack of screening and finally the next step of repurposing to fine screening when the permanent headworks is built in 7 - 10 years.

Where : Silicon Valley Clean Water
1400 Radio Rd.
Redwood City, CA

Dinner: No Charge.
Courtesy of SVCW
