

**CALIFORNIA WATER ENVIRONMENT ASSOCIATION  
SANTA CLARA VALLEY SECTION**

**DINNER MEETING  
February 18, 2016**

**Meeting Topic:** **Alternative 4BE – How We Got Here**  
Silicon Valley Clean Water's (SVCW) Conveyance System Master Plan has been subject to scrutiny due to potential disruption to residents and high costs. After a year-long, exhaustive alternative process, a suite of projects was chosen that meets SVCW's objectives while minimizing potential risks to the agency. The signature project in the Conveyance System Program is a 17,600 foot, 11' diameter gravity pipeline that will be constructed using Tunnel Boring Machine technology. Kim will talk about the Conveyance System Alternative Evaluation process and the planning and project development for the tunneling project, including a discussion about current tunneling technology.

**Dinner Meeting Speaker:** **Kim Hackett, SVCW Engineering Director**  
Kim Hackett is the Engineering Director at Silicon Valley Clean Water. She has 15 years of experience in planning, designing, and construction management of large wastewater capital projects, both in the public sector and as a consultant. At SVCW she is responsible for the implementation of a \$791 million Capital Improvement Program. She is also the Program Manager for the SVCW Conveyance System Program. Kim has her BS in Civil and Environmental Engineering from UCLA and her MS in Environmental Engineering from UC Berkeley.

**Where:** Silicon Valley Clean Water  
1400 Radio Road  
Redwood City, CA 94065

**Dinner:** CWEA Members FREE\*  
Non-members FREE\*  
Students & Retired Members FREE\*
