

**CALIFORNIA WATER ENVIRONMENT ASSOCIATION
SANTA CLARA VALLEY SECTION**

**DINNER MEETING
October 19, 2017**

Topic: Monterey One Water- Advanced Water Purification Facility ~
Learn about their \$100M+ Pure Water Monterey Program. A component of this program is the Advanced Water Purification Facility (AWPF). This project involves the construction of a 4 MGD facility that will treat secondary effluent, industrial waste water, storm water runoff and agricultural drainage to meet Title 22 regulations for Groundwater Replenishment. After treatment, these combined source waters will be sent to injection wells to replenish the Seaside Groundwater Basin in Monterey County. The construction of the AWPF started in September with the goal to start recharging the local groundwater basin by mid-2019.

Speaker: Alex Page P.E. *Senior Staff Civil Engineer*

Alex Page works for Kennedy/Jenks Consultants out of their Santa Clara office. She is currently working with Monterey One Water on their \$100M+ Pure Water Monterey Program.
